

Changepoint 2021-R7-API Release notes (20.00.036.000)

Release date

November 30, 2021

Fixed Issues

Product area	Request number	Description
APIs	CPC-2021-00775	ApiResource.SaveUDF method fails with system error -1 but no error details appear in the API logs when updating a resource that has calculated configurable fields.
	CPC-2021-00804	ApiOpportunity.Update method call fails when passing in the changes for configurable fields only.

Upgrade instructions and additional information

1. Uninstall the previous version of the Changepoint API using Windows Control Panel.
2. Copy the contents of the API Setup folder to the location on the server where Changepoint API will be installed.
3. Run Setup.exe and follow the prompts to install the COM API and Web Services API. For more information, see the *Changepoint API Installation Guide*.
4. Run LoginSettings.exe to configure the \CP Web Services\web.config file.
5. Enable Web Services Enhancements (WSE) if required.
6. Open SQL Server Management Studio with sufficient rights and execute 2000036000.sql against the Changepoint database.

Caveats and notes

- The release package installer is available in English only.
- The following key is added in the Web.config for CP Web Services:

```
< add key="CommandTimeOut" value="200" />
```

This key value of 200 seconds is used as the command timeout for APILookup.ExecuteNonQuery call. User can change this value as required.

Dependencies and overrides

The following release versions must be applied prior to this release in the specified order:

	Release version
1	20.00.036.000 (Changepoint 2021-R7)

The following release versions will be overwritten by this release package:

None.

New or changed files

	Website files
1	ChangepointAPI2.dll
2	Changepoint.BusinessServices.dll
3	Changepoint.CommonServices.dll
4	Changepoint.CommonServices.Enumerations.dll
5	Changepoint.Controls.Search.dll
6	Changepoint.WebApi.Models.dll
7	CPWebService.dll

Changepoint Product Extensions

Product extensions include any code that has been added, modified, or customized in any way. It is strongly recommended that customers who deploy Changepoint product extensions in their Staging, Test/QA, or Production Environments review the list of files

in the “New or changed files” section of this document, to assess whether there is any impact.

Changepoint Customer Enablement should be contacted prior to applying this release package if any of the code associated with the product extension is deemed to be at risk. Failure to do so may result in the files being overwritten or deleted and the extended functionality failing.
