

## Changepoint 2022-R5-API Release notes (22.00.047.000)

### Release date

June 30, 2022

### Fixed issues

Product area	Request number	Description
APIs	CPC-2022-00348	Opportunity service cannot be updated when the Capital field for the service is set to hidden in metadata.

### Upgrade instructions and additional information

1. Uninstall the previous version of the Changepoint API using Windows Control Panel.
2. Copy the contents of the API Setup folder to the location on the server where Changepoint API will be installed.
3. Run Setup.exe and follow the prompts to install the COM API and Web Services API. For more information, see the *Changepoint API Installation Guide*.
4. Run LoginSettings.exe to configure the \CP Web Services\web.config file.
5. Enable Web Services Enhancements (WSE) if required.
6. Open SQL Server Management Studio with sufficient rights and execute 2200047000.sql against the Changepoint database.

### Caveats and notes

- The release package installer is available in English only.

### Dependencies and overrides

The following releases must be applied prior to this release in the specified order:

	Release version
1	22.00.047.000 (Enterprise)

11	Changepoint.CommonServices.vb.dll
12	Changepoint.Controls.Search.dll
13	Changepoint.Controls.vb.dll
14	Changepoint.LegacyInterface.dll
15	Changepoint.UIBase.dll
16	CPWebService.dll

## Changepoint Product Extensions

Product extensions include any code that has been added, modified, or customized in any way. It is strongly recommended that customers who deploy Changepoint product extensions in their Staging, Test/QA, or Production Environments, review the list of files in the “**New or Changed Files**” section of this document to assess whether there is any impact.

Changepoint Customer Enablement should be contacted prior to applying this patch if any of the code associated with the product extension is deemed to be at risk. Failure to do so may result in the files being overwritten or deleted and the extended functionality failing.
