

## ChangePoint 2022-R11-API Release Notes (22.00.053.000)

### Release date

January 31, 2023

### New features and enhancements

- ApiEngagement and ApiEngPurchaseOrder (new) – added the ability to create, update, and delete purchase orders for contract.
- ApiInvoice – updated the get invoice methods to include purchase order number for invoice
- ApiProject and ApiTask – added the ability to create and update credit and debit GL accounts.

### Fixed issues

Product area	Request number	Description
APIs	CPE-2022-00332	Errors are logged erroneously when creating requests using the API.

### Upgrade instructions and additional information

1. Uninstall the previous version of the ChangePoint API using Windows Control Panel.
2. Copy the contents of the API Setup folder to the location on the server where ChangePoint API will be installed.
3. Run `Setup.exe` and follow the prompts to install the COM API and Web Services API. For more information, see the *ChangePoint API Installation Guide*.
4. Run `LoginSettings.exe` to configure the `\CP Web Services\web.config` file.
5. Enable Web Services Enhancements (WSE) if required.
6. Open SQL Server Management Studio with sufficient rights and execute `2200053000.sql` against the ChangePoint database.

## Caveats and notes

- The release package installer is available in English only.

9	Changepoint.Controls.Search.dll
10	Changepoint.LegacyInterface.dll
11	Changepoint.WebApi.Models.dll
12	ChangepointAPI2.dll
13	CPWebService.dll

## ChangePoint Product Extensions

Product extensions include any code that has been added, modified, or customized in any way. It is strongly recommended that customers who deploy ChangePoint product extensions in their staging, test/QA, or production environments review the list of files in the “New or changed files” section of this document to assess whether there is any impact.

ChangePoint Customer Enablement should be contacted prior to applying this patch if any of the code associated with the product extension is deemed to be at risk. Failure to do so may result in the files being overwritten or deleted and the extended functionality failing.
