Upgrade Notes

Connector-Specific Upgrade Notes

Atlassian Jira

- 120976: If issues with writing the "!" and "|" characters in their wikitext fields appear, they will need to be manually resolved.
- 120772: If an integration was previously using Tempo worklogs and is unable to retrieve the proper Jira user, provide a Tempo API token on the Repository Connection screen.

Microsoft Azure DevOps Server (TFS)

- 121765: If using a scope with a custom-defined personal access token for authentication, you must add the "Read" permissions for "Identity."
- 121519: If using Azure DevOps version 2015 update 3 and later, any field mappings using the Board Column string field will need to be updated to use the new Board Column single select field.
- 122570: The connector now only supports Team Explorer Everywhere version 14.136.0. After upgrading the product, Sync must be configured to use this version.

Planview Enterprise

- 122443: If using numeric fields with decimal places in Planview, they will need to be re-mapped as they now appear as Double fields in Sync.

Fixes

Connector-Specific Fixes

Atlassian Jira

- 123192: Fixed an issue where the Parent field was incorrectly marked as required.
- 123050: Fixed an issue where updating a cascading select field throws an error if the parent field is mapped but the child field is not mapped.
- 122874: Fixed an issue where artifacts with more than 20 Tempo worklogs returned with an invalid worklog author.
- 120976: Updated Mylyn wikitext library for Jira to escape "!" and "|" characters.
- 120234: Fixed an issue where incorrect service desk types were assigned to artifacts.
- 122677: Fixed an issue where Sync failed to retry events when authentication expired.

BMC Remedy

- 119516: Fixed an issue where unmapped fields sometimes failed dependency validation when updating artifacts.

Digital.ai Agility

- 123098: Fixed an issue where artifacts were not detected as changed if certain multi-link fields changed.

- 121740: Fixed an issue where a limited number of results were returned during change detection.

GitLab Issues

- 122050: Fixed an issue where an error occurred when the GitLab description field contained more than 16,000 characters.

IBM Engineering Workflow Management

- 123446: Fixed an issue where the connector failed to find resolution options if the status of an artifact was empty.
- 121501: Fixed an issue where multiple users existing with the same ID but different casing blocked artifacts from synchronizing.

Micro Focus ALM

- 123332: Fixed an issue where attachments in Micro Focus ALM could be duplicated during creation.
- 122161: Fixed an issue where an empty Last Modified Date prevented Test Folders from synchronizing.
- 122176: Fixed an issue where requests were not properly authorized when using API Key Access authentication.

Microsoft Project Server

- 122869: Fixed an issue where projects would be automatically checked in when encountering a network-related error.

Planview Enterprise

- 122443: Fixed an issue that caused numeric fields to truncate decimal places in Planview.

ServiceNow

- 119819: Fixed an issue where item retrieval failed when multiple users had the same username.

Targetprocess

- 122585: Fixed an issue where an error appeared when listing options for custom single-select fields with no configured options.

Features

Connector-Specific Features

General (Integrations)

- 121652: Updated Mylyn wikitext to 3.0.42 to address a Jira issue.

Atlassian Jira

- 122717: Added support for custom fields created with the Label Manager for Jira plugin.
- 122678: Added support for Atlassian Jira version 8.22.
- 122629: Added support for Jira Service Management version 4.22.
- 121456: Added support for Jira Tempo Timesheets versions 11.9.2, 15.0.0, 15.0.1, 15.0.2, 15.1.0, 15.1.1, 15.2.0, and 15.2.1.
- 120970: Added support for Atlassian Jira versions 8.20 and 8.21.
- 120969: Added support for Jira Service Management versions 4.20 and 4.21.
- 120772: When using the Tempo plugin on Jira Cloud, the connector now uses the original Jira timesheet author instead of the default 'Tempo Timesheet' user. A Tempo API token must be provided.

Blueprint

- 122680: Added support for Blueprint version 13.1.

Broadcom Clarity

- 121684: Updated the logo for Broadcom Clarity.

Broadcom Rally

- 121679: Updated the logo for Broadcom Rally.

Digital.ai Agility

- 120117: Added support for Digital.ai Agility version 21.3.

Micro Focus ALM

- 122984: Added support for Micro Focus ALM version 16.0.1.
- 119138: Added support for Micro Focus ALM version 16.

Micro Focus ALM Octane

- 122986: Added support for Micro Focus ALM Octane version 16.0.300.
- 120819: Added support for Micro Focus ALM Octane version 16.0.

Micro Focus Dimensions RM

- 121327: Added support for Micro Focus Dimensions version 12.9.

Microsoft Azure DevOps Server (TFS)

- 121765: Added support for email as a person reconciliation field for TFS/ADO versions 2015 and higher.
- 121519: Added support for Board Column as a single select field (Azure DevOps versions 2015 update 3 and later).
- 122570: The connector now uses a version of the Team Explorer Everywhere library that supports Java 11.

Planview Enterprise

- 121087: The Project field is now writeable for artifacts directly below the Project (Primary Planning Level) type.

Polarion ALM

- 119105: Added support for Polarion ALM versions 20 to 21 R2.

Salesforce

- 122841: Added support for synchronization of emailed attachments created with Salesforce Email-to-Case, by setting system property `com.tasktop.connector.salesforce.retrieveEmailToCaseAttachments.enabled` to true when launching Sync.

Tricentis qTest

- 121855: Added support for Tricentis qTest versions 10.2-11.0.

Tricentis Tosca

- 121072: Added support for Tricentis Tosca version 15.0.
- 118859: Added support for Tricentis Tosca version 14.3.
