Planview
IdeaPlace

The Q&A forum is a great way to tap into the corporate brain. This challenge model provides the audience with an engaging format to ask questions, get and provide answers, and build a tribal knowledge base.

Key Benefits

- Engage all associates on topics relevant to them.
- Share and search best practices and tribal knowledge virtually.
- Gain insight into training opportunities.
- Self-governed and low maintenance challenge.

Supporting Resources

- Pre-configured challenge template*
- Challenge creation and configuration tutorial
- Access to IdeaPlace Support
- Optional IdeaPlace Services

*Some configuration is required.

Question and Answer Challenge

While we've prepared a pre-configured challenge template, some configuration changes will be necessary to prepare for launch. Please review the below process and considerations before using this template.

ASSUMPTIONS AND CONSIDERATIONS

- Must have IdeaPlace administration experience and be familiar with the basic challenge framework.

- Platform administrator will be responsible for updating any needed configurations.

- Consider reviewing questions and overall content regularly.

- If a question and related comment thread needs to be removed for any reason, you may close it as unsuccessful and it will be moved into the Archive Stage. Here, while not viewable by the audience, it can continue to be included in reports if needed.
