WELCOME TO THE UNITED NATIONS' UNITE IDEAS

A global community for individuals, teams, and organizations to join forces with the United Nations to develop & apply technology for sustainable development.

From artificial intelligence, mobile & web apps, image recognition, data science, cybersecurity, to blockchain, there are interesting challenges for everyone. And it's all for helping countries, non-governmental organizations, and United Nations entities apply technology to achieve the Sustainable Development Goals.

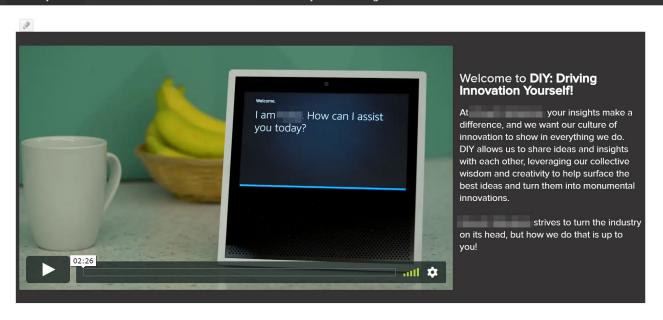

Administration Home Dashboard Challenges About Positive change begins by taking action. 0 Challenges + New Challenge This Community Open Challenges
