

Changepoint SA 2021 Mobile App Quick Start Guide

The Changepoint mobile app provides convenient access to commonly-used features that can be acted on using a smartphone or tablet.

You can use the mobile app even if an internet connection is not available or is lost during a session. When the connection is reestablished, the data in the mobile app is automatically uploaded to Changepoint.

Installing and accessing the Changepoint mobile app

Download the mobile app from the app store for your mobile device.

To sign in to Changepoint using the mobile app, you require the following information:

- Changepoint URL
- user ID and password for signing into Changepoint

Using the Changepoint mobile app

Tap the menu icon  to view the features.

Note: Only the features that you have access rights to appear.

Configuring the Changepoint mobile app

In the  **Settings** screen, you can specify the following mobile app settings.

Changing the default start screen

By default, the time sheet is the start screen but you can change it to any of the other screens.

Selecting preferred currencies

You can select the currencies that you use most frequently for reporting expenses.

Refreshing the application data

You can refresh the data in the mobile app to include the most recent changes from Changepoint.

Viewing Changepoint information

In the  **Settings** screen, you can view the following Changepoint and mobile app information:

- Changepoint URL
- mobile app version
- Changepoint version
- API version
- open source licenses
- log file

Entering time using the Changepoint mobile app

When you first access the time sheet, the existing time entries and pinned tasks for the current week are displayed. To view only the time entries for a specific day, tap the day.

Submitted time entries have a gray bar on the left side. The bar changes to green when the time entry is approved or red if the time entry is rejected.

Entering a time entry

1. In the  **Time sheet** screen, tap the edit icon .

2. Select a task from the list that appears.
3. Enter the time and complete the other fields as required.
4. To pin a task or request to / unpin a task or request from the time sheet, swipe right and then tap .
5. To view and edit additional fields, click .
6. To save, click .

Editing a time entry

1. Tap the time entry.
2. Make the required changes and then click .

Deleting a time entry

Swipe left on the time entry and then tap .

To submit time entries

Tap .

Managing expenses using the Changepoint mobile app
