

Changepoint 2021-R1-Analytics Release (20.00.030.000)

Release date

May 31, 2021

New feature

N/A

Fixed issues

Product Area	Customer Tracking Number	Changepoint Internal Tracking Number	Fixed Issue Description
Analytics		CPC-2021-00358	Error when running a report that includes "Resource confidential information" from the unsecured data model.
Analytics		CPC-2021-00381	[Project].CPProjectType field displays values that do not belong to project type.
Analytics		CPC-2021-00425	Budget currency references the currency from the contract instead of the budget.

Upgrade instructions and additional information

1. From the IBM community website, download the custom HTML Table visualization and then upload it to Cognos Analytics. The HTML table visualization is required for adding entity profile links to tables in Analytics dashboards.

Download the visualization and upload instructions from the following link:

<https://community.ibm.com/accelerators/catalog/content/HTML-Table>

2. Using the instructions in the *Changepoint Installation Guide*, do the following:
 - a) Import the base data model (model.zip).
 - b) Add customized field labels and configurable fields to the data model.
3. Upgrade the database:

- a) Open SQL Management Studio with sufficient rights.
- b) Execute 2000030000a.sql against the **ContentStore** database.
- c) Execute 2000030000b.sql against the **Changepoint** database.
4. Send an email to advise report creators to open each of their reports in Analytics Portal, and then follow the prompts to accept the changed package.

Caveats and notes

N/A.

Dependencies and overrides

The following patches must be applied prior to this patch in the specified order:

	Release version
1	Changepoint 2021 R1 (20.00.030.000)

The following release patches will be overwritten by this patch:

None.

New or changed files

	Package files
1	Model.zip
2	Model_ITD.zip

Changepoint Product Extensions

Product extensions include any code that has been added, modified, or customized in any way. It is strongly recommended that customers who deploy Changepoint product extensions in their Staging, Test/QA, or Production Environments review the list of files in the “New or changed files” section of this patch, to assess whether there is any impact.

Changepoint Customer Enablement should be contacted prior to applying this patch if any of the code associated with the product extension is deemed to be at risk. Failure to

do so may result in the files being overwritten or deleted and the extended functionality failing.
