

Changepoint July 2021 Analytics Release (19.00.144.000)

Release date

July 15, 2021

New feature

N/A

Fixed issues

Product Area	Request Number	Description
Cognos Analytics	CPC-2021-00109	Budget currency references the currency from the contract instead of the budget.
Cognos Analytics	CPC-2021-00357	Error when running a report that includes "Resource confidential information" from the unsecured data model.

Upgrade instructions and additional information

- Using the instructions in the *Changepoint Installation Guide*, do the following:
 - Import the base data model (model.zip).
 - Add customized field labels and configurable fields to the data model.
- Upgrade the database:
 - Open SQL Management Studio with sufficient rights.
 - Execute 1900144000.sql against the **Changepoint** database.
- Send an email to advise report creators to open each of their reports in Report Studio, and then follow the prompts to accept the changed package.

Caveats and notes

N/A.

Dependencies and overrides

The following patches must be applied prior to this patch in the specified order:

	Release version

The following release patches will be overwritten by this patch:

None.

New or changed files

	Package files
1	Model.zip
2	Model_ITD.zip

Changepoint Product Extensions

Product extensions include any code that has been added, modified, or customized in any way. It is strongly recommended that customers who deploy Changepoint product extensions in their Staging, Test/QA, or Production Environments review the list of files in the “New or changed files” section of this patch, to assess whether there is any impact.

Changepoint Customer Enablement should be contacted prior to applying this patch if any of the code associated with the product extension is deemed to be at risk. Failure to do so may result in the files being overwritten or deleted and the extended functionality failing.
