

Changepoint 2021-R5-API Release notes (20.00.034.000)

Release date

September 30, 2021

Fixed Issues

Product area	Request number	Description
APIs		API compatibility release for Changepoint 2021-R5, for Changepoint API to be cache aware.

Upgrade instructions and additional information

1. Uninstall the previous version of the Changepoint API using Windows Control Panel.
2. Copy the contents of the API Setup folder to the location on the server where Changepoint API will be installed.
3. Run Setup.exe and follow the prompts to install the COM API and Web Services API. For more information, see the *Changepoint API Installation Guide*.
4. Run LoginSettings.exe to configure the CP Web Services\web.config file.
5. Open CP Web Services\web.config and replace cache.Password value and cache.Servers with the values used in Enterprise\web.config file:

```
<add key="cache.Password"
value="6ed18d5c7df4439409d65eba624de2aeb7aeale3b745987b9cd81d6e052a01f8" />
<add key="cache.Servers" value="localhost:6379" />
```

6. Enabling Web Services Enhancements (WSE) if required.
7. Open SQL Server Management Studio with sufficient rights and execute 2000034000.sql against the Changepoint database.

Caveats and notes

- The release package installer is available in English only.

8	Changepoint.LegacyInterface.dll
9	Changepoint.WebApi.Models.dll
10	CPWebService.dll
11	Changepoint.Controls.vb.dll
12	Changepoint.WebApi.Models.dll

Changepoint Product Extensions

Product extensions include any code that has been added, modified, or customized in any way. It is strongly recommended that customers who deploy Changepoint product extensions in their Staging, Test/QA, or Production Environments review the list of files in the “New or changed files” section of this document, to assess whether there is any impact.

Changepoint Customer Enablement should be contacted prior to applying this release package if any of the code associated with the product extension is deemed to be at risk. Failure to do so may result in the files being overwritten or deleted and the extended functionality failing.
